

# Soon as You Can

**Dierks Bentley**

I left that sun sinkin' west in California  
I was supposed to stay in LA a few more weeks  
But the next time that old sun and I meet up  
I'll be a thousand miles east Fifty dollars and a gas card in my pocket  
That I'm thinkin' might already be maxed out  
That's just one of those little, crazy things  
I really didn't stop to think about [Chorus]  
'Cause when a man wants to be with a woman  
There ain't no way of gettin' there too fast  
When you know who you wanna spend  
The rest of your life with, you wanna start  
The rest of your life  
As soon as you can That state trooper let me off with just a warnin'  
And a promise that I'd try to slow her down  
Man, that promise was forgotten  
By the time I'd gotten two miles out of town [Chorus] Don't know how much a truck can handle  
But the closer that I get, I keep pushin' it 'Cause when a man wants to be with a woman  
There ain't no way of gettin' there too fast  
When you know who you wanna spend  
The rest of your life with, you wanna start  
The rest of your life  
You can't wait to start the rest of your life  
As soon as you can  
As soon as you can  
As soon as you can
