

Difference Engine

Fear Factory

HERE it comesNoise in the machine
A world of lies backfires on you
Choke cause and effect
Built to collapse the final breakdownTo the system
To the systemFire weapons of fear
Human affliction ever grinding us down
Blood fuels the engine of dissension
We are scabs and the scars nowWe are nothing to the system
We are nothing to the systemTo the system
System
To the systemWe are nothing in the end
Betrayed and disowned
To suffer alone
We are nothing in the end
Betrayed and disowned
To suffer aloneWe are nothing to the system
We are nothing to the systemTo the system
System
To the system
