

True Friends (Post-Hardcore.COM)

Bring Me the Horizon

I wouldn't hold my breath if I was you
'Cause I'll forget but I'll never forgive you
Don't you know, don't you know?
True friends stab you in the front
It's funny how
Things work out
Such a bitter irony
Like a kick right to the teeth
It fell apart
Right from the start
But I couldn't even see
The forest for the trees
(I'm afraid you asked for this)
You got a lot of nerve
But not a lot of spine
You made your bed
When you worried about mine
This ends now

I wouldn't hold my breath if I was you
'Cause I'll forget but I'll never forgive you
Don't you know, don't you know?
True friends stab you in the front
I wouldn't hold my breath if I was you
You broke my heart and there's nothing you can do
And now you know, now you know
True friends stab you in the front
It's kind of sad
'Cause what we had
Well it could of been something
I guess it wasn't meant to be
So how dare you
Try and steal my flame
Just 'cause yours faded
Well hate is gasoline
A fire fueling all my dreams
(I'm afraid you asked for this)
You got a lot of nerve
But not a lot of spine
You made your bed

When you worried about mine
This ends now I wouldn't hold my breath if I was you
'Cause I'll forget but I'll never forgive you
Don't you know, don't you know?
True friends stab you in the front
I wouldn't hold my breath if I was you
You broke my heart and there's nothing you can do
And now you know, now you know
True friends stab you in the front You can run
But you can't hide
Time won't help you
'Cause karma has no deadline You can run
But you can't hide
Time won't help you
'Cause karma has no deadline I wouldn't hold my breath if I was you
'Cause I'll forget but I'll never forgive you
Don't you know, don't you know?
True friends stab you in the front I wouldn't hold my breath if I was you
You broke my heart and there's nothing you can do
And now you know, now you know
True friends stab you in the front And now you know, now you know
True friends stab you in the front
And now you know, now you know
True friends stab you in the front
