

Milk

The 1975

Straight lines that unwind you
She does a little thing with her eye that says, "We're off soon"
She says the bleeding's incidental 'cause she's so cool
She says it's no fun if you've only a bottle of wine And now she's doing it all the time
Yeah, she's doing it all the time Slow down
Yeah, I want you
She does a little bit on the sly that shows what she's up to
She started talking about pretending she's listening
It won't mend your heart if it's only a couple of lines And now she's doing it all the time
Yeah, she's doing it all the time
