

Still Doin' Time

George Jones

Has it been a year since the last time I've seen her
My God I could swear it was ten
And the ocean of liquor I drank to forget her
Is gonna kill me but I'll drink 'til then
I've been livin' in Hell with a bar for a cell
Still payin' for my cheatin' crime
Oh, and I got a long way to go
Still doin' time
Still doin' time in a honky-tonk prison
Still doin' time where a man ain't forgiven
My poor heart is breakin' but there's no escapin'

Each morning I wake up and I find still doin' time
When you're caught cheatin' twice it's twenty to life
In a place where the sun never shines
And tomorrow you're gonna find me right here
Still doin' time
Still doin' time in a honky-tonk prison
Still doin' time where a man ain't forgiven
My poor heart is breakin' but there's no escapin'
Each morning I wake up and I find still doin' time
