Nobody's Singing To Me

Charice

[Verse 1]Everytime you go I'm in the shadows
Every day you know the pain inside grows
Without you I lose the way
Fall apart - go insane.
Used to be I'd hide inside a T.V.
Lately that's not really workin' for me.
No one with anything to say
Not to me...
Not to me...
On and on and on the days drone... I need a song!
[Chorus]What to do tell me what I gotta do
I can't sustain - not the way I'm missin' you
So I turn the radio up
Looking for a melody
But nobody's singin' to me.
It's a blur - don't remember what I heard
You said, "goodbye" now I don't know where to turn
So I turn the radio up (up)
Thinking I'm gonna find relief
But baby nobody's singin' to me
[Verse 2]Every night I'm just a victim of the silence.
Nothing there to help but tell you love is violence.
Hurts more and more with each day.
If you're asking me... the price is paid.
Used to be that I could call on my DJ
Tell him what it is that he could play - play - play:
Play those words I wanna sing along
Make me feel (make me feel)...nothing is wrong

[Chorus]What to do tell me what I gotta do
I can't sustain - not the way I'm missin' you
So I turn the radio up (up)
Looking for a melody
But nobody's singin' to me.
It's a blur - don't remember what I heard
You said, "goodbye" now I don't know where to turn
So I turn the radio up (up)
Thinking I'm gonna find relief
But baby nobody's singin'...

[Bridge]One word to take away this hurt
Waiting for one dream to bring you back to me!
I need a song
[Chorus]What to do tell me what I gotta do
I can't sustain - not the way I'm missin' you
So I turn the radio up
Looking for a melody
But nobody's singin' to me
It's a blur - don't remember what I heard
You said, "goodbye" now I don't know where to turn
So I turn my ipod up
Thinking I'm gonna find relief
But baby nobody's singin to me
What to do, tell me what I gotta do
I can't sustain - not the way I'm missin' you
So I turn the radio up (up)
Thinkin' I'm gonna find relief
Baby, nobody's singin' to me...
