

Always Attract (Live at Wembley)

You Me at Six

If it hurts this much then it must be love
And it's a lottery, I can't wait to draw your name
Oh, I'm trying to get to you but time isn't on my side
If the truth's the worst I can do then I guess that I have lied
Keeping me awake, it's been like this now for days
My heart is out at sea, my head all over the place
I'm losing sense of time and everything tastes the same
I'll be home in a day, I fear that's a month too late
That night I slept on your side of the bed
So it was ready when you got home
We're like noughts and crosses
In that opposites always attract
You've taken me to the top and let me fall back south
You've had me at the top of the pile and then had me kissing the ground
We've heard and seen it all, no one's talked us out
The problems that have come haven't yet torn us down
Am I keeping you awake? If I am then just say
You can make your own decisions, you can make your own mistakes
I'll live and let die all the promises you made
But if you lie another time it'll be a lie that's too late
That night I slept on your side of the bed
So it was ready when you got home
We're like noughts and crosses
In that opposites always attract
You always have your way
For now it's too soon for you to say will we be always, always
You always have your way
For now it's too soon for you to say will we be always, always
You always have your way
For now it's too soon for you to say will we be always, always
You always have your way
For now it's too soon for you to say will we be always, always
You've had your way, you've had your way
You've had your way
