

# Against The Grain (Feat. Ray Lavender)

Akon

So soft and slow  
Never knew a girl could be so god damn cold,  
I know, the way she move got me spendin' my dough  
And yo, If you would've seen what I seen on that pole  
Just know, That I was wrong for fallin' in love  
I was wrong for fallin' in love  
(They always say don't love a ho)  
I was wrong for fallin' in love  
(Don't do it yo') I was wrong for fallin' in love  
(They always say don't love a ho) But I just went against the grain  
It was a feelin' I can't explain  
And it felt like harmony  
Singin' in my face like Diddy-duhdee doo-dah-day  
I don't want it to ever go away  
I want it around me every day  
Singin' in my face like  
Diddy-duhdee doo-dah-day Look at me, I'm stuck  
That bubble in my pants got me caught up  
I never, had no luck  
Thinkin' with the wrong head got me jumpin' out there  
With no glove  
It feels so good had me sprung out all messed up  
Now I'm stuck That's what I get for fallin' in love  
That's what I get for fallin' in love  
(They always say don't love a ho)  
That's what I get for fallin' in love  
(Don't do it yo') That's what I get for fallin' in love  
(They always say don't love a ho) But I just went against the grain  
It was a feelin' I can't explain  
And it felt like harmony  
Singin' in my face like Diddy-duhdee doo-dah-day  
I don't want it to ever go away  
I want it around me every day  
Singin' in my face like  
Diddy-duhdee doo-dah-day So thick, so raw  
That oil all over her body stole my heart  
I'm caught,  
The way she drop down won't allow me to close my drawers  
'Cause I'm, already in love and I knew better from the start

Oh No,I was wrong for fallin in love  
I was wrong for fallin in love  
(They always say don't love a ho)  
I was wrong for fallin in love  
(Don't do it yo')I was wrong for fallin in loveBut I just went against the grain  
It was a feelin' I can't explain  
And it felt like harmony  
Singin' in my face likeDiddy-duhdee doo-dah-day  
I don't want it to ever go away  
I want it around me every day  
Singin' in my face like  
Diddy-duhdee doo-dah-day
