

The Greatest Pain

[Mansun](#)

The greatest pain that I have felt
Is hidden deep within myself
I cannot eat, I cannot sleep
There's something deep inside of me So please, I wish you all the best
So please, get out my fucking, I kicked the habit
Stay where you tell me to stay, I kick the habit
And if you've got to have me I can blame you when I fail Fuck you and all the things you do
By hook or crook it's through for you
At least I try to jump in fire
And if I burn at least I tried So please, don't say that I have failed
So please, there's glory in the way
