

# Best Of Me

Chrisette Michele

Saw you again at the parlor  
Crossing the walk with your lady  
I caught your eye from afar off  
I noticed she wore a ring I found a smile against my wheel  
Wish it was genuine  
I put away my desire  
No more in love with you still  
Look I'm moving on Loved you, lost you  
Thought I gave you all the best of me  
We've departed, broken hearted  
I need to be free What we had was oh so lovely  
I'll swear on my fate  
It's my time to find the best of me Can't be too tired to be begging  
Can't be too tired to plead, no  
My mama made me much wiser  
Which man will be just for me, yeah I'm trying hard to just forget  
I'm crying hard to sleep, yeah  
Promise I'm glad you're happy  
When it's my time it will be  
Look I'm moving on Loved you, lost you  
Thought I'd gave you all the best of me  
We've departed, broken hearted  
I need to be free What we had was, oh, so lovely  
I'll swear on my fate  
It's my time to find the best of me All my life have I been just so foolish all these times  
Not realizing the beauty that your eyes once saw in mine  
I guess it's time to find the best in me Loved you, lost you  
Thought I'd gave you all the best of me  
We've departed, broken hearted  
I need to be free What we had was, oh, so lovely  
I'll swear on my fate  
It's my time to find the best of me The best of me
