Its Real

Dirty Money

It's real, it's real.Happy days and it's not over
What's the point of being sober
What's the point, it's bad for me?
Living poise, catastrophe
You're stuck in shift, I'm driving matic
Hit this shit just like an addict,
Steel toed boots, I'm kicking ladders
Badder and badder it's the same old pattern
What's the matter? I disappoint?
You missed the point just hit the joint
In this joint just bump the music
Bumpin' loose just watch me lose it
Magnum, I'm so magnetic
Act dumb don't be pathetic
Yup you said it
I said it better
Hear have another, hear have another...(Chorus)
Sometimes we all sink deep
Sink in the pillow
We all fall asleep (fall asleep)
That's were I see my dreams
And I take them
And I make them realize
Sometimes we all sink deep
Sink in the pillow
We all fall asleep (fall asleep)
That's were I see my dreams
And I take them
And I make them realizePetal to the metal I said blast off
Full speed ahead, to the last stop
By the power invest in me
I do believe in destiny
I don't believe in resting these
Eyes that keep on wrestling me
Like paper weights, holding plastic
Wow my life is so fantastic
No sleep cause I'm awake
Living the dream, make no mistake
Please don't get it twisted

Empty handed double fisted
I think you missed it
Stay with me, yes I insist it
Gay fish cause you like fish sticks
Stick with me we'll go ballistic(Chorus)
Sometimes we all sink deep
Sink in the pillow
We all fall asleep (fall asleep)
That's were I see my dreams
And I take them
And I make them realizeSometimes we all sink deep
Sink in the pillow
We all fall asleep (fall asleep)
That's were I see my dreams
And I take them
And I make them realizeHappy days and it's not over
Happy days and it's not over
Happy days and it's not over
(It's real)
Happy days and it's not over
Happy days and it's not over
Happy days and it's not over
(It's real)Sometimes we all sink deep
Sink in the pillow
We all fall asleep
That's were I see my dreams
And I take them
And I make them realize
