

Secret Smile

rumHoney

I wish I could stay
Had to leave it all behind
I long for the day
When it's you that I find

Distance means nothing
And I'll try to come back in time
Won't you hear me when I say

Sleep for a while
Keep your secret smile
Wait for me some more
And you won't be alone anymore

I'm too far away
To give you my hand
But you know you can stay with me,
Just as we planned

Soon you'll be coming
As quick as you can
And I can whisper when you wake

Sleep for a while
Keep your secret smile
Wait for me some more
And you won't be alone anymore
