When Love Is Good

Device

Hey babe, what's doin' tonight?
I'm comin' over for candlelight - say
Hey babe, better shut the door
I'm getting bigger than a dinosaur
In a cool breeze underneath the sheets
Such a tight squeeze bittersweet
Oh you're so very nice... well alright

Hey babe there's a lot to see
and somethin's happenin'
'tween you and me - say
Hey babe when I start to roar
I'll have you begging me more, more

In a spotlight mystery blue
Well I will show you what to do
just as smooth as ice...well so very nice
I can't get enough

When love is good, it's good, it's good
and there's nothing better in this world
When love is good, it's good, it's good
When love it's good, it's good, it's good
and there's nothing better than my girl
When love it's good, it's good, it's good

Hey babe n' your heart is mine
I see you glowing like a neon sign - say
Hey babe better hold me close
Your love hurts like an overdose
Don't think it's a matter of trust
'cause this is one thing
that you've just got to trust
It's the beating of a heart
You never get enough

When love is good, it's good, it's good
and there's nothing better in this world
When love is good, it's good, it's good
When love it's good, it's good, it's good

and there's nothing better than my girl
When love it's good, it's good, it's good
