

Go

Tony Jackson

(Verse 1)

We've outgrown this town
Sick of this city
We need some hallowed ground
Solid and steady
Don't need a plan
Don't need no GPS
Hit a highway headed west
Top down, tunes up, me and you can just(Chorus)

Go

All we need is the two of us

We can use the sun as a compass and fly on a breeze
Girl, throw any fear out of that window
The road will teach us all we need to know

Let's just go

(Verse 2)

I can see it now
Farming the valley
Well I'd take a single-wide
Ain't nothin' fancy
Anywhere we can put down roots
Where I can be me and you can be you(Chorus)

Just go

All we need is the two of us

We can use the sun as a compass and fly on a breeze
Girl, throw any fear out of that window
The road will teach us all we need to know

Let's just go(Bridge)

Nothin' here worth stayin' for
Tell me what we're waitin' for
(Chorus)

Let's just go

All we need is the two of us

We can use the sun as a compass and fly on a breeze
Girl, throw any fear out of that window
The road will teach us all we need to know
There's no tellin' where this crazy ride will roll
Let's just go
