Plastic Coated Man

Cyclefly

I want to be an insect
Crawl all over you
Wanna be a, wanna be an insect
And crawlAfter all that we've been through
Still a different point of view
Open eyes that never see
Open mind that won't believeI want to be a soldier
And shave my head
Or die instead
Or die, or die, or dieAfter all that we've been through
Still a different point of view
Open eyes that never see
Open mind that won't believeAfter all you're just like me
Just a wall of energy
See our future in a can
Like the plastic coated manI'm the plastic coated man
I'm the plastic coated manAfter all that we've been through
Still a different point of view
Open eyes that never see
Open mind that won't believeAfter all you're just like me
Just a wall of energy
See our future in a can
Like the plastic coated manSee our future in a can
Like the plastic coated man
See our future in a can
Like the plastic coated manSee our future in a can
Like the plastic coated man
See our future in a can
Like the plastic coated manSee our future in a can
Like the plastic coated man
