All of beef town know my name.
Let us word in did I say?
I'm confused 'Bout all the things I do.
Cause nothing that I said is true.
And If I tell A lie, please be my alibi.
I want to make my lemons real.
That just the way I feel.
Nothing left that bothers me.
Did I mention this is all a lie?

I hide my idenity.
Truth is my worst enemy.
I'm confused.
Bout all the things I do.
Cause nothing that I said is true.
And if I tell A lie, please be my alibi.
I wanna make my lemons real.
That's just the way I feel.
Nothing else bothers me.
Did I mention this is all A lie?

I just cant help!
Pulling my self.

I hide my idenity.
Truth is my worst enemy.
Im confused.
Bout all the things I do
Cause nothing that I said is true
And if I tell a lie, please be my alibi
I wanna make my lemons real
That's just the way I feel.
Nothing else bothers me.
Did I mention this is all A lie
