Glowing

Kristian Stanfill

Out in the darkness with a heart of stone
I was a rebel with a wandering soul
Restless and tired of my broken life
I prayed that You would hear my desperate cry
Then shining brighter than the midday sun
Breaking the darkness like a bright new dawn
Came one more beautiful than I had seen
And Jesus came and set this prisoner free
I will never forget the way
You ran to me when I was far away
And You threw Your arms around me
I will never forget that day
You looked at me and then You called my name
And You pulled me from the darkness
Now I'm glowing
You took my searching hand and led me home
Gathered my broken life and made me whole
I'm resting peaceful in Your sweet embrace
My grateful heart will never cease to praise You
Now I will stand and tell the world about
The way You took my hand the way
You pulled me out
My sin was overcome by sinless blood
My freedom won
I'll sing this song
I will never forget the way
You ran to me when I was far away
And You threw Your arms around me
I will never forget that day
You looked at me and then You called my name
And You pulled me from the darkness
Now I'm glowing
With a light inside come down from heaven
Glowing
You touched this heart of stone and now I'm
Glowing
Let the whole world see Your Spirit in me
Glowing
Burns so bright

I will never forget the way
You ran to me when I was far away
And You threw Your arms around me
I will never forget that day
You looked at me and then You called my name
And You pulled me from the darkness
Now I'm glowing
Let all the world see
Your light glowing in me
