

# Never Say Never

## Buckcherry

Sarah started on the wrong track  
And she was always seeking shelter  
Johnny was an insomniac  
And no one loved him more than Sarah  
Gone, they were gone and the bridge is burning  
Wrong, they were wrong and the wheels are turning  
On, moving on and they keep on learning  
They're gonna make it through  
Never say never, nothing lasts forever  
Life could be much better but you have to just let go  
Never say never, there's nothing to be scared of  
And you don't have to give up on something you don't know  
Oh, no, no  
They sold a Chevy for a Cadillac  
Because a Cadillac looks better  
They never bothered ever looking back  
Because they thought they'd live forever  
Gone, they were gone and the bridge is burning  
Wrong, they were wrong and the wheels are turning  
On, moving on and they keep on learning  
They're gonna make it through  
Never say never, nothing lasts forever  
Life could be much better but you have to just let go  
Never say never, there's nothing to be scared of  
And you don't have to give up on something you don't know  
Well, you're right back where you started  
Sitting all alone  
And this ain't what you wanted  
You just let go  
Never, never, oh, never say never  
Oh, yeah, yeah  
No, never, never say never, oh, never, nothing lasts forever  
Life could be much better but you have to just let go  
Never say never, there's nothing to be scared of  
And you don't have to give up on something you don't know  
Never, never, oh, never say never
