

# Lost Northern Star

## Tarja

I'm the one who leaves shadows  
In your room at night  
I'm the reason you're listening  
Enlightening your eyes  
When Pan meets Apollo  
Down with the sin  
They will send tears of angels  
Though kindness won't win  
Lost Northern star  
Buried in sorrow  
I'll guard your mind  
Let demons howl outside  
Where the calm fields of snow  
Become one with the sky  
I am there, I am waiting  
As time passes by  
I set up the weather  
To suit how you feel  
Drop rain down with wishes  
Build grace out of steel  
Lost Northern star  
Buried in sorrow  
I'll guard your mind  
Let demons howl outside  
My soul burns  
My soul burns  
Sending dream flakes your way  
Painting pictures  
To help you each day  
Yet, you don't know I'm there  
Lost Northern star  
Buried in sorrow  
I'll guard your mind  
Let demons howl outside  
My soul burns
