

No Love"

Hooray for Earth

His fire goes
into our minds
creating further homes
constructing it
without plans
damaging the soulViolence unfolds
it's a beautiful design
watch the light take hold
its a beautiful designIf a wire runs from house to house
does it mean we are connected
destroying it
specific plans
all strewn aboutViolence unfolds
it's a beautiful design
watch the light take hold
its a beautiful designthis no love is what I need
but I want to want to love
I want to want to learn
this time no love is what I need
yeah I want to want to love
I want to want to learnthis no love is what I need
but I want to want to love
I want to want to learn
this time no love is what I need
yeah I want to want to love
I want to want to learnbut I want to want to learn
but I want to want to learn
