

Seconds Away

Vendetta Red

Lead in your chest halo in water watch me drill holes in my head
Misunderstood? Meet me in moonlight with your lovers heart in a box We'll watch how the world pushes
forward
Running like insects from god
You only want to be near him
So you join in his crimson jihad
Cause they cast out the dark with 2 stones and a spark
til your seconds away from redemption
wage your war with the dead and your breakfast in bed
till your seconds away from redemption oh seconds away April came on the pain was like knives digging right
into my feet
Echoes of agony breaking my body most of this is merely a lie We'll watch how the world pushes forward
Running like insects from god
You only want to be near him
So you join in his crimson jihad
Cause they cast out the dark with 2 stones and a spark
til your seconds away from redemption
wage your war with the dead and your breakfast in bed
till your seconds away from redemption oh seconds away Stand alone
Where you are
Stand alone
Where you are
Stand alone
Where you are Cause they cast out the dark with 2 stones and a spark
til your seconds away from redemption
wage your war with the dead and your breakfast in bed
till your seconds away from redemption
Cause they cast out the dark with 2 stones and a spark
til your seconds away from redemption
wage your war with the dead and your breakfast in bed
till your seconds away from redemption oh seconds away
Seconds away
Seconds away
Seconds away
