

# Caravan

## Inspiral Carpets

Sun, here's the sun  
Let's go to the lake  
We'll take you down  
Just say the word Rain, here's the rain  
Slip and slide in vain  
Mud between our toes  
Saturation take you home They came through the sun  
They came through the rain  
Through this rocky terrain  
A caravan Everyone take note  
We've dug here before  
Here is where I'll lie  
When this night is done It's time I guess  
As we go marchin' on  
Live for every day  
As if it were the last They came through the sun  
They came through the rain  
Through this rocky terrain  
A caravan Sun, here's the sun  
Let's go to the lake  
We'll take you down  
Just say the word Rain, here's the rain  
Slip and slide in vain  
Mud between our toes  
Saturation take you home They came through the sun  
They came through the rain  
Through this rocky terrain  
A caravan
