

Happy House

Ed Blackwell

This is the happy house, we're happy here in the happy house

 Oh, it's such fun, fun, fun

 We've come to play in the happy house

And waste a day in the happy house, it never rains, never rainsWe've come to scream in the happy house

 We're in a dream in the happy house

 We're all quite sane, sane, sane

This is the happy house-we're happy hereThere's room for you if you say "I do"

 But don't say no or you'll have to go

 We've done no wrong with our blinkers on

It's safe and calm if you sing along, sing along, sing alongThis is the happy house, we're happy here in the
 happy house

 To forget ourselves and pretend all's well

There is no hellI'm looking through your window

 I'm looking through your window
