

The Guitar (the Lion Sleeps Tonight)

They Might Be Giants

Hey, who's that playing
Hey, the guitar?
Is it Jim? I don't know
Is it Jim? I don't know
In the spaceship, the silver space ship, the lion takes control
In the spaceship, the silver space ship, the lion takes control
Hey, who's that playing
Hey, the guitar?
Hush my darling, be still my darling, the lion's on the phone
Hush my darling, be still my darling, the lion's on the phone
Hush my darling, be still my darling, hey
Hush my darling, be still my darling, hey
Turn it up, the guitar
I can't hear, the guitar
In the spaceship, the silver space ship, the lion waves good bye
In the spaceship, the silver space ship, the lion waves good bye
Hey, who's that playing
Hey, the guitar?
Hey, hey
Hey, hey
