Only One

Cherish

Verse 1
you and me together make the perfect combination
like a body to a soul
like an actress to a role
i know you have trust issues
but i'm here to let you know
i'm your catherine
you're my joe
better half
you make me whole
Hook
i know you go through my phone(phone)
checkin all of my messages
thinkin i'd do you wrong (wrong)
tryna see who i'm messin with
baby i'll ride for you
baby i'll die for you
you are the only one
the only that i'm lovin
Chorus
the only one that i'm lovin
is you, is you
and the only one i let touch me is you, is you
you're the only that sees me
in my vicky secret
the one i share my sheets with, baby
the only one that i want is you
the only one that i'm missin is you, is you
and the only one that i'm kissin is you
you're the only one that sees me
look rough in the morning
get that early lovin
baby, the only one i'm lovin is you
Verse 2
see me without you would be like some music with no song
us together
is not a choice
its like me
without a voice

and baby when i tell you that there's nothing going on
i'ma need you to trust me
and stop tryna prove me wrong, baby
Hook
i know you go through my phone(phone)
checkin all of my messages

thinkin i'd do you wrong (wrong)
tryna see who i'm messin with
baby i'll ride for you
baby i'll die for you
you are the only one
the only that i'm lovin
Chorus
the only one that i'm lovin
is you, is you
and the only one i let touch me is you, is you
you're the only that sees me
in my vicky secret
the one i share my sheets with, baby
the only one that i want is you
the only one that i'm missin is you, is you
and the only one that i'm kissin is you
you're the only one that sees me
look rough in the morning
get that early lovin
baby, the only one i'm lovin is you
Bridge
cause you get all my love
and i swear it's only you
you're the only one for me
just open up and see
you gave your heart
i won't break it
my love for you ain't changin
baby please hear what i'm sayin
here's all of me
so take it
Chorus
the only one that i'm lovin
is you, is you
and the only one i let touch me is you, is you
you're the only that sees me
in my vicky secret
the one i share my sheets with, baby

the only one that i want is you
the only one that i'm missin is you, is you
and the only one that i'm kissin is you
you're the only one that sees me
look rough in the morning
get that early lovin
baby, the only one i'm lovin is you
