

Swollen (Francois K Vocal)

Bent

With you in my garden
Its more peaceful inside
I don't need anything else
To make me feel alive You electrify me
And I want to be in your arms
For always
For always Our love is swollen
Made of the quietest shade of loud
Holds me like an anchor
Floats just like a cloud Our love is swollen
Made of the quietest shade of loud
Holds me like an anchor
Floats just like a cloud
