Pink & Black

Caroline

Pink & blackPink and BlackI must confess I feel uneasy
My cheeks weigh heavily
I must confess you've affected me
I need your memory to
Take me out of this world
Take me out of this worldHere we go
I'm gonna make
All this happen
In little steps
In little steps I'll make it closer to
I'm gonna make
All this happen
In little steps
In little steps I'll make it closer to youI must confess
I've been constructing
To build some feeling
I must confess
Time's affected me
I need new memories toTake me out of this world
Take me out of this worldHere we go
I'm gonna make
All this happen
In little steps
In little steps i'll make it closer to...
I'm gonna make
All this happen
In little steps
In little steps i'll make it closer to youPink and black
Happy sad worldTake me out of this world
Take me out of this world
