Tracking Treasure Down

Gabriel & Dresden

i Know this will be
something i remember in my head,
something i remember.

Sharp words push me back,
im hangin on, to anything i can
anything i can.

what do you tell me,
only things i want to hear,
why dont you tell me,
this could just dissapear.

CHORUS: ()-backing voice words in brackets.
At the same time,(at the same time)
you keep, tracking treasures down
At the same time,(at the same time)
at the same time,
tracking treasures down,
tracking treasures down
tracking treasures down,
tracking treasures down,(tracking treasures down)
at the same time(at the same time)

Can't stop myself tonight,
wanna fight for something i believe,
something i believe.

open up, take me in,makes no sense,
help me understand,
help me understand.

what do you tell me,
only things i want to hear,
why dont you tell me,
this could just, dissapear.

you tell me of,
pirate ships and fairytales,
you help me, wishin

that everything was real.

(at the same time)
(at the same time)
you keep, tracking treasures down.
At the same time,(at the same time)
At the same time,(at the same time)
At the same time,(at the same time)
at the same time.

what do you tell me,
only things i want to hear,
why dont you tell me,
this could just, dissapear.

At the same time,(at the same time)
you keep, tracking treasures down
At the same time,(at the same time)
at the same time,
tracking treasures down,
tracking treasures down
tracking treasures down,
tracking treasures down,(tracking treasures down)
at the same time(at the same time)
