Fault

[Hawai](#)

You remind me
of a love I once had
Years ago I thought I'd never lose control
Now that I am older, I am stronger
But without you I don't believe it matters

Chorus:
All this time is building up
Draw the line, you've had enough
Is it all my fault
that you gave it up
All this time is building up
Draw the line, you've had enough
Is it all my fault
that you gave it up

You were beside me
when I needed you the most
Never was a day you needed for yourself
If only I had drawn the lines better
Maybe then I wouldn't be without another

Chorus

I wanted it all my way
I wanted it all my way
Even when your heart was breaking
I wanted it all my way

I wanted it all my way
I wanted it all my way
Even when the walls were shaking
I wanted it all my way

Chorus
