Shadowshow

iamamiwhoami

am fire, I am damage in the making
I am an army set out to control your every ticking
I am a giant stepping on the tiny world you live inAnd you shake and you shiver
As the roof is coming down
And the walls grow thinnerShadowshow darkens the river
Turn hearts into stone
We run, we run
Terrified, what have we done?
Is this how it goes?
Silence grows
Loudly beckon
It's heartrending cold
You run, you run
Terrified what have you done?
Is this how it goes? (let the shadows swallow all)
It's how it goesMass confusion, never been so excited
What your hearts felt for us was evidently unrequited
By the sea, we're laying down your hopes
You conquer all, your rise or fall
By the sea, we're laying down my hopes
You conquer all, I'll rise or fallAnd I shake and I shiver
As I cut through skin and bones
Can you solve the riddle?Shadowshow darkens the river
Turn hearts into stone
We run, we run
Terrified, what have we done?
Is this how it goes?
Silence grows
Loudly beckon
It's heartrending cold (let the shadows swallow all)
You run, you run
Terrified what have you done?
Is this how it goes? (let the dark come call us all)
It's how it goesLet the shadows swallow all
Let the dark come call us all
I am fire, I am damage in the making
I am an army set out to control your every ticking
