Everywhere I Go (Kings and Queens)

New Politics

Downtown hopping fences
I smashed a window on a Lexus
Now 5-0's on my tail, but they movin' like a snail
I got some shit to sell
But everybody's gotta get by, by, by, by
I got holes in my pockets
Everybody wants to stay high
So you know I got it, if you want itThis one's for everyone that said I'm nothing
This one's for my friends that don't give a fuck
So if you don't give a fuck singEverywhere I go, I'm higher than united, fly with me (uh huh)
Everybody knows (ooh), there's no sleep 'till Brooklyn, no sleep (uh huh)
We get high, we get by, yet we roll with it
We've been up, we've been down, we got over it
Everywhere we go (hey), we're the kings and queens, and we run this cityI got prior offensives
You know this life it can be hectic
Now it might seem like a death wish
Being so young and fucking reckless(Now) Everybody's gotta get by, by, by
I got holes in my pockets
Everybody wants to stay high
So you know I got it, if you want itThis one's for everyone that said I'm nothing
This one's for my friends that don't give a fuck
So if you don't give a fuck singEverywhere I go, I'm higher than united, fly with me (uh huh)
Everybody knows (ooh), there's no sleep 'till Brooklyn, no sleep (uh huh)
We get high, we get by, yet we roll with it
We've been up, we've been down, we got over it
Everywhere we go (hey), we're the kings and queens, and we run this cityThis one's for the accidental lovers
This one's for the one's who are not in love
To my ex, to my mom, to my dad, and the teachers
My boss, and the cops, oh my God all the preachers
All the give, and the take, and the take, and the give
Now we've taken enough, it's enough so just singEverywhere I go, I'm higher than united, fly with me (uh huh)
Everybody knows (ooh), there's no sleep 'till Brooklyn, no sleep (uh huh)
We get high, we get by, yet we roll with it
We've been up, we've been down, we got over it
Everywhere we go (hey), we're the kings and queens, and we run this city(Hey) We're the kings and queens and we run this city
(Hey) We're the kings and queens and we run this city
