Sunshine

Jo Mersa

Hey girl you're my sunshine
Hey girl you're my sunshine
You light up my dark clouds

Even when my skies are blue
To the rest a women them, yuh no similar
How you walk and talk, mi see seh you no regular
Nuff man try and can't reach your cellular
You're a natural queen, just spectacular
Special days marked on your calendar
Nuff other woman no inna yuh caliber
House well fresh smelling like lavender
Give yuh the loving show seh mi no amateur
Hey girl you're my sunshine
Hey girl you're my sunshine
You light up my dark clouds Even when my skies are blue
