

# Hello Cruel World

## Bad Religion

I can't stop the way I feel  
But I can penetrate your religion with a nail  
You are mine and we are twine  
When we radiate in waves together everything is fine  
Hello cruel world do you know that you're killing me?  
I don't mind but I could use a little sympathy  
I've been blind as a fool can be  
My dear cruel world do you ever think about me?  
I can feel so alone with you right here  
And yet I turn to you for comfort in my despair  
You are dust and I am bone  
And I will love your endless gaze of madness until I turn to stone  
Hello cruel world do you know that you're  
killing me?  
I don't mind but I could use a little sympathy  
I've been blind as a fool can be  
My dear cruel world now I know you are my everything  
Please forgive me  
Hello cruel world do you know that  
you're killing me  
I don't mind but I could use a little sympathy  
I've been blind as only a man can be  
My dear cruel world now I've made a mess of everything
