By the Waters

Paul Weller

There's a will there - It's a feeling
Always rushing - To the higher ground
So long you bum - You can get your work done
Come down beside the water sit and rest
Come down beside the water sit and rest
Sit and restOn a high blown - Hear the sky cry
Hear the world turn - Will you not learn
So long you said - But it's not in your head
Come down beside the water sit and rest
Come down beside the water sit and rest
Sit and restBeen a long time - Always burning
In a night sky - Many miles by
Come down you bum - You can get your work done
Come down beside the water sit and rest
Come down beside the water sit and rest
Come down beside the water sit and rest
Come down beside the water sit and rest
sit and rest
sit and rest
sit and rest
