Fall Back Down

[Rancid](#)

Don't worry about me, I'm gonna make it alright
Got my enemies crossed-haired in my sight
I take a bad situation gonna make it right
In the shadows of darkness I stand in the light
You see it's our style to keep it true
I've had a bad year, a lot I've gone through
I've been knocked out, beat down, black and blue
She's not the one coming back for you
She's not the one coming back for you
If I fall back down, you're gonna help me back up again
If I fall back down, you're gonna be my friend
If I fall back down, you're gonna help me back up again
If I fall back down, you're gonna be my friend
It takes disaster to learn a lesson
You're gonna make it through the darkest night
Some people betray one and cause treason

We're gonna make everything alright
Well the worst of times, now, they don't phase me
Even if I look and act really crazy
On my way down, she betrayed me
Now my vision is no longer hazy
I'm very lucky to have my crew
They stood by me when she flew
I've been knocked out, beat down, black and blue
She's not the one coming back for you
She's not the one coming back for you
If I fall back down, you're gonna help me back up again
If I fall back down, you're gonna be my friend
(guitar and drum playing)
If I fall back down, you're gonna help me back up again
If I fall back down, you're gonna be my friend (x4)
(guitar and drum playing 'til end)
