

# One Hand

## The Dirty Heads

We live like titans we live immortal  
The uninvited the other side of the road  
We are the right hand you are the mortar  
We'll build you up and then make you the cornerstone  
See mirrored mountains painted in water  
We will disturb them jump in and bring 'em to lifeOhh  
One hand comes after the other  
Ohh  
No time to run for cover  
Ohh  
Feels like I'm climbin' forever  
Ohh

One hand comes after the otherI feel the weight of the world upon my shoulders  
It feels like the weather outside is getting colder  
No sense in hiding, I just keep climbing  
The sky is the limit and that's right behind me  
I can feel it coming down harder than before  
God speed, keep steady man heavy is the storm  
Be warned and be told  
Time won't wait for the helpless  
I'll rest when I'm dead till then I'm livin' restless  
Yes you can't hold me down cause my confidence is constant  
I'm killin' this shit death wish Charles Bronson  
Look around man the whole world is watching  
What you gonna say, take cautionOhh  
One hand comes after the other  
Ohh  
No time to run for cover  
Ohh  
Feels like I'm climbin' forever  
Ohh

One hand comes after the other(One hand comes after the other, one hand comes after the other)Realizing  
everything in life is beautiful,  
I know this world can make us crazy act like animals  
I've seen the worst and now I know there's always brighter days  
Once you reach the bottom ups the only other way  
I keep on climbing till I find just what I'm lookin' for  
Can't stop me now I'm going to climb until I can't no more  
We take our chances and sometimes they have the price to pay

That's just the way it goes, there ain't no other wayOhh

One hand comes after the other

Ohh

No time to run for coverOhh

One hand comes after the other

Ohh

No time to run for cover

Ohh

Feels like I'm climbin' forever

Ohh

One hand comes after the otherOne hand comes after the other

One hand comes after the other

One hand comes after the other

One hand comes after the other
