

Dream On Dreamer

Cascada

The other rain is falling down
Through the clouds hits the ground
Wash away traces in the sun
Yesterday so far away it disappear, love is here
I close my eyes to be with you again
Still alive the world is in your hand

Dream on dreamer
And the sun will always shine down on you
Keep on dreaming
It's alright feel alive
Dream on dreamer
And the world keep spinnin' around and round to go
Don't stop dreaming
It's alright, we're alive
We're alive

I watched your name to cross the sky
I'll be with you to the end of time
Don't wake me up I'll reach for your hand
I'll never go to break your heart
No matter with you're near or far
Just close your eyes
To be with me again

Still alive the world is in your hand

Dream on dreamer
And the sun will always shine down on you
Keep on dreaming
It's alright feel alive
Dream on dreamer
And the world keep spinning around and round to go
Don't stop dreaming
It's alright, we're alive
We're alive
