# Big Boat

## Peter, Paul & Mary

I went up the levee to pack some sacks
And I thought I'd bring me some money back
Big boat up the river and she can't come down
My woman on the levee wearing a frownBig boat up the river and she can't come down
Big boat up the river and she can't come down
Big boat up the river and she can't come down
Big boat up the river and she can't come downSomebody tell that woman
Somebody tell that woman
Somebody tell that woman
There's a big boat up the river and she can't come down
Big boat up the river and she can't come downBig boat up the river blowing loud and fast
If she don't get to deep water she'll never land
And my woman on the levee shaking her hand
She thinks she's gonna quit me for another manBig boat up the river and she can't come down
Big boat up the river and she can't come down
Big boat up the river and she can't come down
Big boat up the river and she can't come downSomebody tell that woman
Somebody tell that woman
Somebody tell that woman
There's a big boat up the river and she can't come down
Big boat up the river and she can't come downBig boat up the river blowing loud and fast
And my woman on the levee feeling mighty sad
She thinks I got the money that I once have had
But when I get her home it's gonna be too badBig boat up the river and she can't come down
Big boat up the river and she can't come down
Big boat up the river and she can't come down
Big boat up the river and she can't come downSomebody tell that woman
Somebody tell that woman
Somebody tell that woman
There's a big boat up the river and she can't come down
