I'm Holding'

Zawles

(CHORUS)
I'm Holdin' you posin',
I'm focused on gettin' those in,
i'm serious, y'all joking,
you dont eva eva wanna go against my squadron

(Verse1.)
Z-Dubb i'm deep in this game, i'm out on a quest for fame,
harrassin and questioning the DT's want us kept in chains,
pack nine milley's for you lames, got nine inches for you dames,
this street life and sex life is ironically kept the same,

smokin' on cheeba cheeba, bass bumpin through my speakers,
rollin' on Daton spokes the glitter paint makes the ride look meaner,
felonies and misdemeanors the charges we got between us,
swear til the day we die to never let a hoe come between us,

I hail from the livest side, where some of the livest died,
where real niggas run the streets while punk niggas they run and hide,
my life is one hell of a ride, my truck is one hell of a ride,
one hand on the steering wheel seat laid back is the way we ride,

Roll wit the livest crew, husling is what we do,
move to the deepest burbs with plans of gettin next to you,
so now what you gonna do when real niggas come for you,
I bought about forty nines but in your case just a tec'll do

(CHORUS)
I'm holdin' you posin',
i'm focused on gettin' those in,
I'm serious, y'all jokin',
you don't eva eva wanna go against my squadron
