

Sleeper

The Defiled

Dropped in seclusion
The eye of the storm
The art of deception
Influence inform
Its empty, consuming
Wish I could forestall the morning I become betrayer of them all
Deceive and infiltrate
Confuse control their fate
A pattern developed
Ive learned to perform
A good little liar
False feelings on show
Its so disembodied the crackling voice
Making it known that I have no choice
Deceive and infiltrate
Confuse control their fate
Deceive and infiltrate
Its the curse of the Unknown Soldier
But its all that Ive come to know
I am the Sleeper trapped in this cell that haunts me
Its the curse of the Unknown Soldier
But its all that Ive come to know
I am the Sleeper trapped in this cell that haunts me
(That haunts me)
Its unforgivable
Its so dismal
The only life I will ever know
Draws to a close
Its the curse of the Unknown Soldier
But its all that Ive come to know
I am the Sleeper trapped in this cell that haunts me
Its the curse of the Unknown Soldier
But its all that Ive come to know
I am the Sleeper trapped in this cell that haunts me
(That haunts me)
