

# First of May

James Taylor

And the light between us  
Which we could not quite extinguish  
Which we see at dawn  
Burns on First day of may  
Things are beginning  
Our side is winning  
Hip hip hooray  
Made in the shade  
Deep in the shadow  
Down by the meadow  
Lie in my arms And the moon will rise  
Before our very eyes  
We will rise too  
I'll be with you  
It's a rite of spring  
A horizontal thing  
The sweetest sort of dance  
Hidden in among the plants Ha ha ha ha  
People are laughing  
Children are singing  
Come join the dance And the walls around us  
Which we kept at such a cost  
When we turned around  
Came tumbling down Ha ha ha ha  
She can't stop laughing  
He can't stop singing  
First day of may
