

Deceiver

Soulfly

From your mouth shit comes out
I know what you're all about
Spreading lies and misery
Why don't you face reality Deceiver, spawn the bastard
Deceiver, your grotesque existence
Deceiver, I vomit on you
Deceiver, I curse your soul With this dagger, I kill the leper
Accuser of all, I the rapture
Come back from the dead to fuck with me again
Sucking my bloody veins, your shame has no end Deceiver, your filthy corruption
Deceiver, your mental abortion
Deceiver, your terminal cancer
Deceiver, a slave to your master
