

# Captain's Hill

## Mighty Oaks

The hill we climbed, when we were young  
Aside a sea in Ireland  
It seemed so tall to children  
You pulled me up to roll me down A drive to Fore, an Abby stone  
A jump, a photograph all our own  
Now we hold to what we lost  
A memory like fire in our minds It's true, it's true  
We learned to live through you  
It's true, it's true  
We learned to live through you Been known to use some hope and truth  
To get the days to turn around  
And if it's lost, it's time to move  
I fear we're stretched too thin now It's true, it's true  
We learned to live through you  
It's true, it's true  
We learned to live through you And if I'd go on today, I'd work for a simple life  
And if I'd find a way to walk amongst all the tall pines  
And now I'm gonna lead a life alone, I'll walk along the edge  
And I'm gonna turn my eyes to you  
It's true It's true, it's true  
That we learn to live through you
