

# Earthquake

Wyclef Jean

Yeah, ayeEarthquake, down there in Haiti  
Earthquake, in the past of Chile  
Earthquake, in the hand Indonesia  
Earthquake, in the events of ChinaEarthquake, is comin' to America  
Earthquakes are there in California  
Earthquake, warn ya people in the city  
That the Earth is gettin' angryI asked Earth what have we done  
She said we buildin' too much bombs  
So there's too many sons that won't see their father  
Too many daughters that won't see their mother  
Too many grandmas that won't see their grand-kids  
'Cause they are in the rubble in Port Au PrinceEarthquake, down there in Haiti  
Earthquake, in the past of Chile  
Earthquake, in the hand Indonesia  
Earthquake, in the events of ChinaEarthquake, is comin' to America  
Earthquakes are there in California  
Earthquake, warn ya people in the city  
That the Earth is gettin' angryThat's when the earth started talkin' rude  
Say she's thirteen, she's a prostitute  
I tried to beg for the young girl's life  
But when the earthquake came, it took her to the other sideThen I asked the Earth, who's next?  
She said, those that's polluting the planet  
They killin' everything, movin' flowers and abusing mankind  
And the only thing left is ArmageddonEarthquake, down there in Haiti  
Earthquake, in the past of Chile  
Earthquake, in the hand Indonesia  
Earthquake, in the events of ChinaEarthquake, is comin' to America  
Earthquakes are there in California  
Earthquake, warn ya people in the city  
That the Earth is gettin' angryAnd as much as we take it for granted  
We might not have no bed to lie in tonight, whoa, aye  
And this birth, yes, we take it for granted  
Our kids might get no ice-cream tonight, whoa, aye  
And this birth, yes, we take it for granted  
We might not kiss our loved ones tonightAnd if we want the Earth to be better  
Let's start spreadin' some love on the planet called Earth  
Let's start spreadin' some goodness on the planet called Earth  
Let's start spreadin' some kindness, yeah, aye  
Let's get rid of the weekenders, whoa, ayeOne love, one heart, one soul

(Daddy, what's an earthquake?)  
The shakin' and the tremblin' of the earthMy generation  
The only way I feel I can help  
Is if I become the President of my country
