

My Gun Go Off

50 Cent

Nigga, my gun go off
You see the barrell turnin', you feel the hollows burnin'
Nigga, now you learnin', nigga, my gun go off
Call it attempted murder, nigga, I'm tryin to merk you
When I come back bustin', nigga, my gun go off Don't try to say I'm trippin' when I get to flippin'
An I start to clip in, nigga, my gun go off
We call it puttin' work in, leavin niggas hurtin
Homicide's learkin', nigga, my gun go off Fuck, boy, you can see it to believe it
Tryna dodge and wave it, end up a paraplegic
Believe me its easy, I'll hurt you, I'll merk you
I'll pop summin', drop summin', I aint gonna stop huntin' Run, run till you're spun, one shot, one gun
One, 911 emergency, it's murder, B
It's excellent execution when I'm pulling the trigger
No mistake for that cake, I'm hittin you and your niggas Feel the flame when I aim for the top of your brain
See the spark and the bang, nigga shit ain't a game
Do the math when you blast, bullets go through the glass
Go through your ass fast and the leather seat sittin Ave Nigga, its not a war when there's casualties on one side, I
ride
Turn it up on you niggas after Jay ride by
I click-clack, thats that, I don't flash, I mash
I wave the Uzi at em, I make a movie out em Nigga, my gun go off
You see the barrell turnin', you feel the hollows burnin'
Nigga, now you learnin', nigga, my gun go off
Call it attempted murder, nigga, I'm tryin to merk you
When I come back bustin', nigga, my gun go off Don't try to say I'm trippin' when I get to flippin'
An I start to clip in, nigga, my gun go off
We call it puttin' work in, leavin niggas hurtin
Homicide's learkin', nigga, my gun go off Yeah, you better lose yourself in the moment
Use it, fuck the music, I'ma let it go
You only get one shot fore I back out and fire back
At ya hat, at ya back, ya ass crack, ya nut sack Your Cadillac, if you make it to that, I'm hitting that
The 70's was smack, 80's crack, 90's was grimey
Millennium macs man, clips on the whips
I ride in em and bad bitches I ride in em And dont worry I'll get em, gat jammed or unjammed
Goddamn, safest the safety, dont work
Squeeze the eagle, it chirp
End up faced down in the dirt, more than hurt Bring the beef where you hang out
Bang out, shots ring out
Hit your shoulders, tryin to blow your brains out Hit your homies in their legs

Bet they have their canes out tomorrow
You know tomorrow's just a day away
If you can keep your heart beatin' and your ass awakeNigga, my gun go off
You see the barrell turnin', you feel the hollows burnin'
Nigga, now you learnin', nigga, my gun go off
Call it attempted murder, nigga, I'm tryin to merk you
When I come back bustin', nigga, my gun go offDon't try to say I'm trippin' when I get to flippin'
An I start to clip in, nigga, my gun go off
We call it puttin' work in, leavin niggas hurtin
Homicide's learkin', nigga, my gun go off
