The Way I Do

Thriving Ivory

When your mind is set
And you're just out to get
Things that which I don't know
I guess you're gonna go
And find those things I don't do
Yeah you know it's true
Feels like all I know is not gold
So take it easy
And get your good shoes on
Make like you've nothing to lose
It'll help you choose
'cos I love you baby
Well it seems like lately
I don't think you feel the way I do
Well our affair is done

It's just come and gone
We're just the same as those fools
Who try and make up the rules
We're born out of evil and gain
The song will remain the same
It's gonna take all the words and just not change
So take it easy
And get your glad rags on
Let's make like we've nothing to lose
It'll help us to choose
'cos I love you baby
Well it seems like lately
I don't think you feel the way I do
The way I do
The way I do
The way I do
