

# Bent Down

## Hale

My conscience is hurting my ear  
But im happy as long as you are here  
    I hide if I can  
    I don't care where I stand  
As long as you are bent downYou never said what does it mean  
    Im speaking the same words again  
        But I will if you have to fall  
        Im here if you want me at all  
Just as long as you are bent downShe feels im laid out for everything here  
She keeps me away from this song of mineI don't know why this wont stop  
    Cause maybe it just wont stop  
    But it will if I hear you call  
    But maybe you don't care at all  
But at least you're the one bent downShe feels im laid out for everything here  
    She keeps me away from this song of mineYou could be here  
        Or you can be here  
        As close as I can hold  
        Together as were told  
    We were the ones bent down
