

# I Think About You

**Ross Lynch**

Last summer we met  
We started out friends  
I can't tell you how it all happened  
Then autumn it came  
We were never the same

Those nights were just like magic And I wonder if you miss me too

If you don't here's the one thing that I wish you knew I think about you every morning when I open my eyes

I think about you every evening when I turn out the lights

I think about you every moment, every day of my life

    Your on my mind all the time

    It's true

I think about you How long till I stop pretending

    What we have is never ending

woah woah And if all we are is just a moment I saw

    Don't forget me and I won't and

I can't help myself I think about you Ohhh I think about you Ohhh I think about you every morning when I open  
    my eyes

I think about you every evening when I turn out the lights

I think about you every moment, every day of my life

    Your on my mind all the time

    It's true

I think about you I think about you
