

# Lucy

## The Hollies

Got a call from the doctor  
He said, "Hold on my friend  
You've gotta know what I'm knowing  
Please come right away" He said, "Lucy's been seeing me  
And things just ain't right  
You'll have to hold things together  
'Cause Lucy ain't much time" Now should I tell her or keep it inside  
Making her happy by feeding her lines  
How am I gonna tell the children that Mama's goin' away  
I couldn't love another woman, oh, Lucy please stay If I'm gonna lose you after all this time  
I'm gonna make life more beautiful, I'm gonna make you, make you feel fine  
If we make tomorrow, we'll make it better every way  
We'll keep on building 'cause we're living day to day Now should I tell her or keep it inside  
Making her happy by feeding her lines  
How am I gonna tell the children that Mama's goin' away  
I couldn't love another woman, oh, Lucy please stay  
I couldn't love another woman, Lucy please stay Baby, baby, baby, Lucy please, oh, won't you stay  
I need you, I need you, please don't go, please don't go  
Lucy please, please won't you stay, hey  
I want you to know that I love you, I love you
