

# Days In Hades

## Hoods

Ohh, because we've sinned, because we've sinned  
Everyday it gets worse, gets worse, gets worse  
Gets worse, gets worse, gets worse, gets worse  
Stomach twists in fear with the thought to turn  
Friend pulls a knife and starts to attack  
I'd take their life, I get you back  
Fight you fucking all, myself I'd kill  
Hate this bastard life, enemy of this world  
Search for relief, there's no place to hide  
Tired of being oppressed, hope you all fucking die  
Search for relief, there's no place to hide  
Tired of being oppressed, hope you all fucking die  
Ohh, what we've sinned, what we've saved it for  
Stomach twists in fear with the thought to turn  
Days in hades, you all hope for the best  
So much to give, too much of a test  
I feel myself fold under the weight of this hell  
Still hope for the best, I still hope for this world  
Days in hades, we all hope for the best  
So much to give, too much of a test  
I feel myself fold under the weight of this hell  
Still hope for the best, I still hope for this world  
Search for relief, there's no place to hide  
Tired of being oppressed, hope you all fucking die
